Control Your Hot Tub From Your Smart Phone

The Balboa Worldwide App (bwa™), is an app for your smart device (Android® or iPhone®) that allows you to access your hot tub via a direct connection anywhere in the local proximity of your tub, anywhere in your house that you can connect to your local WiFi network, or anywhere in the World you have an internet connection to your smart device via 3G, 4G, or WiFi hot spots.*

With the bwa™ app, you can ensure that your hot tub will be ready whenever you want to take a dip. Instead of going outside and pressing buttons on the topside panel, the app lets you start the tub and change settings from your smartphone or tablet.

The App provides full interface control so you can set the temperature, turn pumps on and off and even set filtration cycles.

Take Control of Your Life So you can relax when you need to get away.
