

ColorGlo™ LED Multi-Color Bath Lights

ColorGlo™ LED Multi-Color Bath Light offers a variety of microprocessor controlled lighting effects that will instantly transform your bath into a color-rich paradise.

This user guide contains important information regarding the operation of your LED Bath Light. Please review the entire guide carefully and save it for future reference.

⚠ DANGER
Risk of Electrical Shock or Electrocutation

Always disconnect power to the bath light at the circuit breaker before servicing the light. Failure to do so could result in death or serious injury to the installer, bath users, or others due to electrical shock.

Choosing Lighting Modes

The ColorGlo™ LED Multi-Color Bath Light comes pre-programmed with 10 exciting lighting modes.

- To advance to the next lighting mode, switch the unit off and then on again within five seconds.
- To resume a lighting mode, leave the unit switched off to store the last lighting mode displayed in memory. That same lighting mode will display the next time the unit is switched on.

Safety Precautions

- Be sure to follow all instructions in this user guide and carefully observe all safety precautions.
- Do not attempt to service the electronic components yourself. Non-expert handling may cause injury to the user and/or damage the unit. Any opening, altering or tampering with this product will void the manufacturer's warranty.
- Do not submerge this unit in water or allow it to get wet. Keep the unit dry at all times.
- Do not allow this unit to freeze.
- Always handle this unit cautiously, being careful to never drop it.

Replacing the LED Bath Light and or Standard 12 Watt Light Bulb

Step 1

Access the currently installed light/s by removing the center, clear light lens. Use the tool provided with your whirlpool to remove this center lens.

Step 2

Remove the o-ring seal very carefully. Make sure not to stretch the o-ring.

Step 3

Remove the light bulb or LED from the socket in the rear light reflector housing. To remove bulb, pull it straight back towards you. **Do not twist to remove.**

Step 4

Plug the bulb or LED Bath Light into the socket. Push the blade connection firmly into the socket in the reverse manner to which you removed the bulb. Make sure the bulb or LED light is securely installed or bottomed out.

Step 5

Replace the o-ring very carefully and reinstall the center light lens using the same tool you used to remove it.

Note: Make sure not to over tighten, crimp or distort the o-ring when reinstalling the center light lens. (See Safety Precautions)

Operating the LED ColorGlo™ Multi-Color Bath Light

The LED Bath Light is easily controlled using the bath existing light switch to turn the unit on and off.

Lighting Mode Sequence

- Magenta
- Blue
- Red
- White
- Sunburst
- Green
- Tidal Wave
- Afterburner Fade
- Color Burst
- Slow Dance

LED Life Rating

Light Emitting Diodes (LEDs) generate the illumination of the Bath Light.

The predicted source life of the LED is rated at 100,000 elapsed time hours, or 11 years of continuous use, under normal operating conditions. The following are considered normal operating conditions for this multi-color bath light:

- Temperature range of -4° F to 104°F (-20°C to 40°C)
- Humidity range of 0% - 95%, non-condensing
