

# ControlMySpa™

**ControlMySpa™ was created to deliver a spa experience beyond anything ever seen in our industry before.**

We believe in integrating the latest technology with revolutionary ideas and creative innovation. Our IOT team has been busy creating a spa experience (ControlMySpa™), beyond anything ever seen before in our industry. At Balboa, we are the innovators of tomorrow.

# ControlMySpa™

Anywhere, Anytime, Anyplace

  - Real-time operational data
  
- **Push notifications & messaging**
  - Problem alerts
  - Error Codes
  
- **Diagnose the fix before you arrive**
  - Know what part(s) you need

## Experience the Balboa personal system today.

### Log-in

Spas are automatically created in the digital database when the homeowner first logs in.

### Monitoring the Spa

Once logged in, the spa is then connected to the OEM and the Dealer for monitoring, so your spa will always be just right.

### #03

### No pressure set-up

Specially engineered so there is no burden placed on the OEM or the Dealer to set-up accounts.

# For the Spa Owner...

We provide peace of mind for your customer, an easy to use app with no access fees, the latest in Wi-Fi technology with alerts and reminders and the ability to schedule custom events.

Every detail of ControlMySpa™ is custom designed.

- ✓ **No Touch Set-up**  
No wires. No cables necessary to set-up the spa on the home Wi-Fi network. Just easy “no touch set-up” with the iOS or Android app to connect to the spa.

---

- ✓ **Anytime. Anywhere.**  
Spa Owners, Technicians and OEM’s can monitor, troubleshoot and control the spa remotely.

---

- ✓ **No hassle. No hook-ups.**  
No need to connect any hardware. All set-up is done through the app.

---

- ✓ **Schedule events**  
Party ready to Saturday night romance all easily scheduled via the smartphone app.

---

- ✓ **Automatic software updates built-in**  
Enjoy all the future capabilities without ever changing any hardware.
